

You changed **THEIR** story.

"I took it upon myself and called Women's First Choice. I had no idea who they were, but I was in need of help... I am beyond grateful and I am able to share my bundle of joy with these lovely ladies."

Partner with us to reach our year-end impact goal.

Raise \$22,000 by December 31 to reach more abortion-minded women, to save the lives of unborn children, and to show the love & hope of Jesus Christ.

We love stories with happy endings and we are so blessed to be able to share Kiara's story with you. Unfortunately, not every woman will walk out of our clinic and make the decision that Kiara did. In today's culture, there are many pressures these women face which makes it harder for them to accept grace and the resources we have. There has been a shift in the patients we see, as many are very abortion determined when they walk in.

We have to continue to present truth in love with confidence and boldness and challenge these women so that they do not have to live with the regret of abortion. We recognize that it is not our decision to make, so we also must be willing to help them when they do choose to abort by offering post-abortion recovery. Our mission is to empower them to choose life but we also want to help them find the healing and restoration after abortion if that path is taken. As abortion clinics continue to close down and Pregnancy Care Centers thrive, we know we will see more abortion determined women who need the pressure of time taken off of them and we want to provide that safe place where they can find the medical services, education and peace to make a decision about their pregnancy. **Would you like to be a part of this? It takes just \$250 to empower one woman with our services.** We want more testimonies as Kiara's to share with you and by God's grace we believe that we will be able to take our blessings and use them for these women who desperately need them. **We are so thankful for your support and faithfulness in serving alongside of us.**

You changed **THEIR** story.

GOAL
\$22K

At our end of the year campaign last year, we talked about how “you can change her story.” Well guess what? You did! You changed THEIR story. Actually you have helped us change A LOT of stories but we want to tell you about one in particular. Each day at our clinic, Women’s First Choice, we see women in every walk of life. Our job is to meet them where they are at. **No agenda. Just love.** We are completely centered around the woman and transforming her fear into confidence. We want to come alongside of these women and eliminate the crisis; not the pregnancy. James 2:16 says, “If one of you says to them, Go in peace; keep warm and well fed, but does nothing about their physical needs, what good is it?” We encourage our patients to make a decision based on peace. However, we recognize that in order to do that, we must be willing to sacrifice by giving them hope through their perceived feeling of helplessness. By God’s grace, we have one woman who wanted to share her story and so therefore we are able to give her a platform to do so with our faithful, generous donors. We believe it is time to take a step further into investing in these women so that they see motherhood as a gift; not a burden. That’s where YOUR gift makes a difference by providing the resources these women need so that they know their community supports their life affirming decision. Here’s one story of many that you have made possible this past year:

“Have you ever been lost and unsure when certain circumstances cross your path? “But the Lord stood with me and strengthened me.” 2 Timothy 4:17 A few months ago this was me. I found out I was pregnant and I didn’t know what to do. I took it upon myself and called Women’s First Choice. I had no idea who they were, but I was in need of help.

*During my appointment, I was able to sit and talk with Amanda. That day was the first day I cried about being pregnant. However, it was more of a relief than a burden. Amanda and I talked, prayed and read some encouraging scriptures. After talking with Amanda, I met with Jessica. Jessica showed me the growth of this beauty I get to look at everyday. **Once I heard my daughter’s heartbeat, I knew regardless of my situation, I would go through with my pregnancy.***

My pregnancy was an emotional rollercoaster. I felt like I wouldn’t be able to care for my daughter as well as my other two kids. Little did I know God had other plans for me. “For I know the plans I have for you,” declares the Lord, “Plans to prosper you and not to harm you, plans to give you hope and a future.” Jeremiah 29:11

Women’s First Choice was a blessing in disguise. We kept in touch throughout my entire pregnancy. The ladies gave me a baby shower that was very welcoming and loving. Still till this day I am beyond grateful and I am able to share my bundle of joy with these lovely ladies. “She is more precious than rubies: and all things you can desire are not to be compared to her.”

-Kiara
