# A Letter From The Director

*by Darlene Barber*

Dear Life Friends,

Whether it be a recent Supreme Court decision or simply the news we see each evening, it is easy for us to look at our society with concern.

In our work at the Pregnancy Care Center and Women's First Choice, we see first-hand what can happen when a society releases its embrace on core values. Sadly, the results can be tragic.

But what should our response be? To curse the darkness when it appears to envelop our culture?

I think of the Apostles Paul and Silas, who, while imprisoned decided to press on with their mission, which was to advance the Kingdom of God in any way they could. If it meant praying, they prayed. If this meant singing, they sang.

Amazingly, an earthquake rescued them and brought about salvation for a jailer and his family. Our mission? To reach those who see their situations as hopeless, offering them grace, love and hope so they can make positive, life-affirming decisions. To rescue moms and of course, their children, from the ramifications of abortion. And, our mission is to renew our community with a new culture, a culture of life.

In the face of a society that can appear increasingly callous, we offer comfort, redemption, healing and tenderness.

No, we're not here to curse the darkness. There are plenty who can do that. We choose instead to bring the light which only comes from the love of God.

So each morning, we come into Women's First Choice with an expressed purpose: We will be light, just like Paul and Silas. And from the stories we see in the lives of those who come in our door, we know that light beats darkness, any day of the week.

Thank you for your support. Together, we are a great team, a team of light to a world who needs us now more than ever.

# Should Planned Parenthood Be Defunded? Absolutely.

In light of recent videos by the Center for Medical Progress, hundreds of thousands of Americans are taking to social media asking for the defunding of the country's leading provider of abortion, Planned Parenthood.

And, many are writing to state and congressional representatives, calling for political leaders to take action by taking away the \$542 million Planned Parenthood receives from government coffers.

The videos are shocking to many who had no idea of what goes on in abortion centers, and the outrage is palpable.

Government funding grants Planned Parenthood the money for extensive advertising, and allows this group to provide certain services which entice women to come back when they are pregnant - which opens the door to its massive abortion business.

But here's the question for all of us in the pro-life community.

We know what we should not fund. Yet what should we fund? When we say an emphatic "NO" to Planned Parenthood, shouldn't there be an alternative "Yes?"

At the Pregnancy Care Center/Women's First Choice Medical we don't ask for tax dollars. But we are asking those in our area - such as you - who believe in the sanctity of life to look our way. It's not enough to say "no" to Planned Parenthood and abortion; we need to offer a resounding "Yes" to joining with others to reach out to those who are in unplanned pregnancies with life-affirming, hope-creating support.

If you have not yet had an opportunity to join us with your financial support, now is the perfect time. Together we are saying "no" to the funding of Planned Parenthood. And here, we are saying "Yes" to life, every day.

## Choose Life Car Tags

Choose Life of Georgia, Inc. is a non-profit organization that receives revenue from the sale and renewal of Choose Life specialty plates (\$10 per plate). They distribute a portion of these funds to

agencies that counsel for adoption and not for abortion. The Pregnancy Care Center is one of these agencies. When someone buys a "Choose Life" tag for their car in Tift county and the surrounding counties, the PCC benefits.

Have you ever thought

*"I might want to be a part of the PCC"*

but weren't sure you had the time, the abilities, or the right gifts?

## Brown Bag It To Save A Life

What does it save to skip that lunch out during a busy business day? A few dollars perhaps? Maybe even five, ten or fifteen dollars? Now multiply those savings over the course of a week, a month, or even a year.

What if all of us who eat out at lunch decided that—every once in awhile—we would "Brown Bag It" for the Pregnancy Care Center? The result could easily equal lives saved.

When times are tight, we're all looking for ways to cut back while somehow continuing support for those efforts we believe in. Perhaps for many of us, a brown bag and an apple—here and there—could make the difference in touching hearts and saving lives.
